

GROW INTERNATIONAL, S.A.R.L.

GROW mark Technical Regulation CONDITIONS OF USE OF THE BRAND AND LOGO

1 PACKAGING MATERIALS

In order to use the GROW brand and logo, wooden packaging and its components may be of any type and size but must not contain or be manufactured in any case, with the following products and materials which are totally banned for the use of the brand and logo: paints, lacquers, impregnation, inks with heavy metals, non magnet staples, fiberboard, glued labels (except for identification), chemical treatment of wood, and generally any other material other than wood or magnet staples.

2 LOCATION

GROW brand or logo should be placed visibly on the packaging. That may be placed on the heads, sides or laths and its design may be any of those contained in chapter "5. MARKING POSSIBILITIES".

3 OTHER USES

The assignment also includes the use for publicity purposes, as well as invoices, receipts and other documents

4 LICENSE NUMBER

Marking of the wood packaging and/or documents with the GROW mark won't be valid unless accompanied (next to the logo) by the corresponding license number, which should have been given to the company by GROW national member, and/or at least by the name of the packaging manufacturer or an understandable abbreviation of it.

License number consists of ISO country code followed by a serial number. Other regional codes or initials in the country could be used between them according to the discretion of the GROW country member.

Examples (Spain, "ES-Province Initials-serial number", France, "FR-serial number")

5 MARKING POSSIBILITIES

DIMENSIONS: In its full version the diameter must be at least 25 mm.
COLOR: In any version color should be preferably, green or black.
